MONUMENT™

Specially designed for use on Sheet Lead, Copper, Zinc, Aluminium etc. Made with sufficient lift to clear users' knuckles. All wooden tools supplied with hanging tag for pegboard displays.

Beech. An economically priced timber yet ideally suitable for these tools.

Hornbeam. Tougher than beech with a close grain, one of the strongest and hardest indigenous timbers.

Plastic. High density plastic much favoured by users for its durability.

Fitted with ferruled top, straight pattern for chasing roofing materials.

3537W	Cuts Right and Straight	✓

Each copper bit is made from forged electrolytic copper with a sturdy shank fitted securely to the handle. Whitewood handles.

Allows material to flow past blades when cutting circles or intricate shapes. Cuts sheet zinc, steel, copper, brass, carpet tiles, lino, wire netting without the material interfering with the users hand because the handles are above the work. Both left and right handed users can use either pair.
